EDUCATION

Dwarkadas J. Sanghvi College of Engineering

B.Tech in Electronics & Telecommunication — CGPA: 8.45/10

Mumbai, India

Aug 2023 – May 2027

B.Tech Honors in AI & Machine Learning — CGPA: 8.2/10

- **Relevant Coursework:** Data Structures & Algorithms, DBMS, OOP, Machine Learning, Probability & Statistics, Computer Networks, Software Engineering

EXPERIENCE

Electronics & Software Trainee Engineer

Jun 2025 – Oct 2025

Prama Instruments Pvt. Ltd.

Mumbai, India

- Developed a real-time data acquisition platform integrating 7+ sensors, with automated data logging to a **MySQL** database and RESTful API endpoints for remote access.
- Built a **Python**-based data processing and calibration pipeline, improving data reliability by 20% through statistical anomaly detection.
- Collaborated in an **Agile** environment with weekly sprints, code reviews, and version control using **Git**.

R&D Engineer & Technical Trainer

Jun 2024 – Jul 2024

RoboKart

Mumbai, India

- Delivered technology workshops across 5+ institutions to **300+ participants**, translating complex technical concepts into actionable, audience-appropriate content.
- Designed reusable training modules on IoT and automation – demonstrating strong **stakeholder communication** and client-facing skills.

PROJECTS

Short-Horizon Return Prediction Engine | Python, Pandas, Scikit-learn, SQL

May 2026

- Built a scalable **data pipeline** processing 4+ GB of financial market data (2.4M+ records) with automated ingestion, cleaning, and feature engineering stages.
- Engineered and benchmarked **5 ML strategies** including gradient boosting ensembles and ridge regression; improved prediction accuracy by 10–50×.
- Developed automated diagnostic and **data validation tooling** with unit tests, ensuring data integrity across 20+ iterative experiments.
- Identified a 44× prediction-scaling deficiency via statistical analysis, demonstrating strong **analytical problem-solving**.

ResQNet: Cloud-Integrated Crisis Management Platform | Python, MQTT, REST API

Mar 2026

- Architected an end-to-end **IoT platform** with real-time event detection, cloud sync, and **AI-assisted validation** using a human-in-the-loop approach.
- Implemented a decentralized mesh network with **offline data caching** and automatic cloud sync – ensuring zero data loss during outages.
- Built a **web-based monitoring dashboard** with real-time alerts, geolocation tracking, and incident reporting.

AI-Powered Farm Surveillance & Analytics | Python, TensorFlow Lite, MQTT

Jul 2025 – March 2026

- Deployed edge-AI detection with a custom **MobileNet-SSD model** (92% accuracy, <200ms latency) for real-time wildlife threat classification.
- Designed an automated alert pipeline using **MQTT messaging**, reducing wildlife incursions by 35% through data-driven deterrent activation.
- Built a centralized **analytics dashboard** with historical trends, detection logs, and performance metrics for stakeholder decision-making.

Autonomous Vehicle Tracking & Reporting Platform | JavaScript, REST API, SQL

Apr 2026

- Developed a **real-time web dashboard** integrating GPS telemetry, object detection feeds, and system diagnostics for live vehicle monitoring.
- Implemented automated report generation with **event logging and database storage**, providing actionable mission summaries.

TECHNICAL SKILLS

Languages: Python, SQL, Java, JavaScript, C/C++, HTML/CSS
Data & Databases: MySQL, PostgreSQL, Pandas, NumPy, Scikit-learn, Tableau, ETL
Frameworks & Tools: REST APIs, MQTT, Git, GitHub, Agile/Scrum, Unit Testing, CI/CD, Jupyter
Cloud & Platforms: AWS (basics), Google Cloud Platform (basics), Linux (Ubuntu), Docker (basics)
Productivity & AI: GitHub Copilot, SQL generation tools, VS Code, JIRA

LEADERSHIP

- Internship & Placement Coordinator**
DJ Sanghvi College of Engineering

2026 – Present
Mumbai, India

 - Coordinating end-to-end campus placement and internship drives, serving as primary liaison between recruiters, HR teams, and students.
 - Managing recruiter communications, scheduling, and preparation pipelines – demonstrating **client relationship management** and cross-functional coordination.
- Treasurer – NOVA Committee**
DJ Sanghvi College of Engineering

2025 – Present
Mumbai, India

 - Managing committee finances including budgeting, sponsorship acquisition, expense tracking, and financial reporting across multiple college-wide events.
- Electronics Senior (Avionics)**
DJS ARYA – Official CanSat Team

Jun 2024 – Present
Mumbai, India

 - Led avionics software development integrating IMU, environmental sensors, and encoder feedback with **Kalman filter fusion** for real-time telemetry.
 - Built a custom **ground station** with real-time data visualization and telemetry management – won **Mark Walker Best Ground Station Award 2026**.

AWARDS & ACHIEVEMENTS

- Mark Walker Best Ground Station Award** – International CanSat Competition 2026
- International CanSat Competition (AAS/NASA)** – Ranked 1st in India, 4th in Asia, 10th Worldwide (2026)
- IN-SPACE CanSat India (ASI/ISRO)** – All India Rank 1 among 70+ teams (2024–25)
- Published Research** – Aeroponic IoT, DJS STRIKE Conference (ISBN: 978-93-341-2968-7)
